

LET'S GROW

SOMETHING TOGETHER

- **100% No-Till since 2002**

Promotes soil health and reduces water and wind erosion

- **Crop Rotations - 7 crops in 5 years**

Year 1-Wheat/DC Milo; Year 2-Corn; Year 3-Soybeans; Year 4-Wheat/DC Milo; Year 5-Soybeans

- **Lime**

Variable rates of lime applied as needed, after DC milo or corn

- **Surface Drainage**

Create elevation maps after DC milo or corn; design and implement drainage plan with automated blade

- **Controlled Traffic**

Reduces compaction to promote soil health

- **Farmer's Edge**

Provides management zones, soil test zones, and yield goals by zone

Builds fertilizer, chemical, seeding, and lime prescriptions

- **Fertilizer**

Split apply fertilizer to reduce run-off

- **Chemical**

Use See & Spray sprayer to reduce chemicals applied

CAME FAMILY

Farms

- **Rent Arrangements**

Crop Share: 60% Came Family Farms
- 40% Landowner

Flex Lease: Base lease payment, plus eligible for flex lease payment

Crop Share Rent: Much like crop share, except we manage all income and expenses for the year and then use those numbers to calculate rent payment.

- **Communication**

Website used to post harvest reports

Notified once fields are harvested
